# TRANSCEND

The Transcend collection from Hooker Furniture is a symphony in the preservation of the natural character of the tree. Each item forms a direct connection between the customer and the forest. Made of solid Acacia, Transcend honors the global environment through responsible forestry management practices such as the planting of one tree for each one harvested.

All items feature true solid-wood construction, even including the drawer boxes and back panels. A transparent, light cinnamon finish allows all of the beauty of the wood to show through while providing the same durability and protection that Hooker Furniture has been known for since 1924. Metal bases are finished in a soft, lightly antiqued brass that is a subtle compliment to the wood tones. The drawer boxes being made of the same solid Acacia as the outside of the cases are truly exceptional in both their look and their construction. All drawers are mounted on metal ball-bearing drawer guides. Simple lines and understated elements bring the breathtaking organic beauty of Indian Acacia into harmony with contemporary forms.
